

BRINGING POSITIVITY TO PLASTIC SURGERY

By

DR. CYNTHIA L. DIEHL

DIEHL PLASTIC SURGERY, PLLC
RALEIGH, NORTH CAROLINA

D

edicated to her patients,

Dr. Cynthia L. Diehl ensures that their needs, desires and concerns are addressed during consultations. "My practice is directed toward giving the patient empowerment and control over their decisions," she says. "It is important to discuss the options and help them decide which procedure is going to achieve their goal while also fitting in with their lifestyle. Communicating with my patients is key to managing their expectations and delivering optimal results." Dr. Kenrick Spence, an experienced plastic surgeon who focuses on procedures for the face and injectables, works alongside Dr. Diehl at her practice.

“

Your results should look natural, like you were born that way.

WHO I AM

1.

WHAT I LOVE MOST ABOUT MY PRACTICE

We offer more than just surgery as an option. We are excited to add the Thermi™ platform, which uses radio frequency energy for skin tightening on the neck and jawline and nonsurgical vaginal rejuvenation

2.

MOST UNDERRATED PROCEDURE

miraDry is a technology that reduces and often eliminates underarm sweat and odor. This is a life-changer for patients with hyperhidrosis

3.

MY FAVORITE SURGERY TO PERFORM

Abdominoplasty—the overall effect can be very dramatic

4.

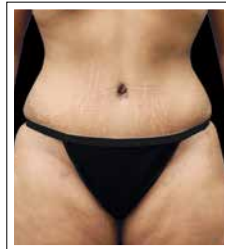

WHAT SETS MY PRACTICE APART

Our 5,932-square-foot center is designed to reduce stress with soft lighting, artwork and relaxing music—we also have an AAAASF-accredited in-suite operating room, which provides patients with a private entrance and waiting area for family members to sit and relax

5.

WHAT I LOVE MOST ABOUT MY PROFESSION

I love how dramatically and visibly we can change a person. When patients come back for their follow-up and I reveal their results, it's like unwrapping a Christmas present. They see the smile on my face and I see the joy in their face—it's a great moment for me

Total Tummy Makeover

To correct this 29-year-old patient's excess skin, fat and stretch marks on her abdomen, Dr. Diehl performed a tummy tuck to give her the trim silhouette she desired.
